

What is JAZMIN?

VOIP combined with a stable Internet service will support your entire phone system!

JAZMIN connects your valuable business number to the internet which links it to your VOIP Service.

Your number moves with you.

Tested by Telecommunication Engineers and trialled in a range of business environments.

JAZMIN has excelled in a variety of industries over the past 3 years.

JAZMIN hardware is robust, has crystal clear reception and a 5 year manufacturer guarantee.

Weekend installations are available to minimise business disruption.

JAZMIN employs state of the art hardware and a smart VOIP network shaped by industry experts from many of the major telecommunications carriers.

The **JAZMIN** network, hardware and software is both NBN compliant and **user friendly!!**

JAZMIN With a 'Z' Eazy as Can Be !

VOIP Solutions

Affordable phone calls that shrink costs and build business

Fritz Box

JAZMIN With a 'Z' Eazy as Can Be !

Benefits

- ❖ The **Fritz Box** is a phone call over the internet tool with low set up costs
- ❖ Calls are much cheaper than over a fixed (copper wire) telephone line
- ❖ Mobile phone call costs drop by up to 75%
- ❖ Fixed line call costs plunge from 25c to 13c
- ❖ Calls on your internal network are free!
- ❖ International calls at calling card rates
- ❖ Installations by registered technicians
- ❖ Additional outgoing VOIP lines at no charge
- ❖ Elimination of redundant phone lines and PABX systems after migration of your number to the internet.
- ❖ Your **JAZMIN** system has an inbuilt PABX
- ❖ Quality Control – Your system will be monitored virtually every 60 seconds.
- ❖ Remote nocturnal upgrades ensure firmware advancements are delivered without business disruption

With one broadband connection your team can speak to multiple people simultaneously
